EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Fred Dorchak on November 24, 2004.

The application has been amended as follows:

In claim 1 line 20, after "connector" insert --; and wherein said shutter has a two-plates structure having two shutter plates, the shutter plates having two common shafts consisting of the pair of shafts at the both sides of the shutter plates, respectively, and moving upward and downward around said two common shafts, respectively to open and butting the ends of the shutter plates together to close--.

In claim 2 lines 2, change "the shutter comprises one" to -- at least one of the--; and delete "that".

Cancel claim 3.

In claim 5 line 3, prior to "said shutter" insert --at least one of--.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a combination of a shuttered connector and a mating connector, wherein the shutter has a two-plates structure having two shutter plates, the shutter plates having two common shafts, in combination with the remaining limitations of claim 1.

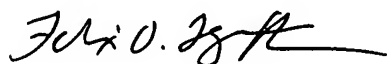

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
